DoP No 002

Standard EN 14915:2006+AC:2007

Thermally modified tongue and grooved massive
cladding board from softwood Norway spruce

16-32 mm * 68-185 mm

End use application: exterior use ceilings and walls

Species	Norway spruce (Picea abies)
Density and thickness	390kg/m ³ , 16/13-32/13mm
Fire resistance	D – s2,d0
Thermal conductivity	0,11 W/m K
Sound absorption	NPD
Formaldehyde emission class	E 1
Durability classification - against fungus	Class 2
