

LUNA PRO COATED UTV 20×142 Hidden Nailing

- Installation-ready surface-treated facade

Lunawood Thermowood is an ecological and weatherproof option for facades and a variety of exterior applications. **Luna Pro Coated** is a new installation-ready, factory-treated exterior product with high-quality surface treatment and hidden nailing profile to ensure a premium result. The surface-treated Luna Pro Coated is installed using a hidden nailing system – no visible nails break the surface of the wood.

Luna Pro Coated reduces on-site installation time and the ready facade looks clean-cut. Luna Pro Coated is available in three colours that perfectly suit traditional and modern wood constructions. Semi-transparent brown wood stains and intense black, selected by exterior wood treatment professionals, offer long maintenance intervals and an effective weather resistance for facades.

RESIN FREE

THE BENEFITS OF LUNA PRO COATED FACADE

- Installation-ready, factory-treated product
- First-class surface treatment protect wood effectively from moisture, sunlight, dirt and cracking
- Simplifies and speeds up work on the construction site
- The Hidden Nailing profile enables elegant appearance without visible nails

ELEGANT BRUSHED BLACK

The Brushed **Luna Pro Coated** UTV is treated with the waterborne Tikkurila Ultra Pro topcoat to give an intense coverage. Ultra Pro is developed to withstand demanding weather conditions. As a result, the product is an excellent choice for exterior use. Ultra Pro creates a flexible, fast-drying film on the surface of the wood, offering excellent protection against water penetration. The flexible film adapts to changing weather conditions, allowing wood to breathe year-round. The durability of Ultra Pro has been tested in accordance with standard EN 927-5.

Tikkurila colour code: Black 0202

Gloss level: Matt (5/RT-standard)

Expected maintenance period: 10 years*

NATURAL BROWN TONES

Luna Pro Coated is treated with the waterborne Tikkurila Pinja Color Plus wood stain that highlights the wood's beautiful grains. The stain creates a satin-smooth surface and protects the wood effectively against moisture, sunlight and cracking. The stain utilises unique Super Color pigment technology, which creates natural brown shades that are perfect for thermally-modified wood. Factory-painted Luna Pro Coated UTV -products are available in both light and dark brown.

Tikkurila colour code: Dark brown 00G8 and light brown 318R

Gloss level: Semi-matt (4/RT-standard)

Expected maintenance period: 7 years*
