LUNA DUAL SHADOW

Guideline for Luna Dual Shadow installation

Luna Dual Shadow gives a 3D batten effect for interior walls, ceilings and facades due to its deep grooves. It is fast to install compared to individual battens.

dimensions (mm)	26x142
class	LunaThermo-D
species	Nordic spruce
length (m)	3,9 - 5,4
m/m ²	7,6

Indoor application:

Provide adequate support structure in accordance with your local building regulations. Do not install lamps or other heavy objects directly to the product.
