LUNA FEMMA

Guideline for Luna Femma installation

Luna Femma is a traditional panel product with five-fingers. It gives a modern twist with 10 mm groove and flattened top.

dimensions (mm)	26x142
class	LunaThermo-D
species	Nordic spruce
length (m)	3,9 - 5,4
m/m ²	7,4

Indoor application:

Provide adequate support structure in accordance with your local building regulations. Do not install lamps or other heavy objects directly to the product.
