

# LUNA PRO COATED UTV 20x142 Hidden Nailing

## Installation-ready surface-treated facade

Lunawood Thermowood is an ecological and weatherproof option for facades and a variety of exterior applications. Luna Pro Coated is a new installation-ready, factory-treated exterior product with high-quality surface treatment and hidden nailing profile to ensure a premium result. The surface-treated Luna Pro Coated is installed using a hidden nailing system – no visible nails break the surface of the wood.

Luna Pro Coated reduces on-site installation time and the ready facade looks clean-cut. An intense black, selected by exterior wood treatment professionals, offer long maintenance intervals and an effective weather resistance for facades.

## ELEGANT BRUSHED BLACK

The Brushed **Luna Pro Coated** UTV is treated with the waterborne Tikkurila Ultra Pro topcoat to give an intense coverage. Ultra Pro is developed to withstand demanding weather conditions. As a result, the product is an excellent choice for exterior use. Ultra Pro creates a flexible, fast-drying film on the surface of the wood, offering excellent protection against water penetration. The flexible film adapts to changing weather conditions, allowing wood to breathe year-round. The durability of Ultra Pro has been tested in accordance with standard EN 927-5.

Tikkurila colour code: Black 0202

Gloss level: Matt (5/RT-standard)

Expected maintenance period: 10 years\*

\* Expected maintenance period applies to the following countries:

Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Hungary, Latvia, Lithuania, Netherlands, Norway, Poland, Romania, Sweden, Switzerland, Slovakia, United Kingdom
