

LUNAWOOD BATTEN-LOOK PRODUCTS

Lunawood offers a collection of batten-look products that are now in fashion on decorative surfaces. The mock-grooves of these profiles create fascinating texture to any surface, and they are easier and quicker to install than individual battens.

Lunawood batten-look products are Luna Triple 32x140, Luna Femma 26x142, Luna Dual 26x142 and Luna Trio 26x92. All these products give rhythm and texture to any decorative surfaces both indoors and outdoors. They allow long horizontal and vertical outlines that are extremely dimensionally stable. Thanks to the tongue and grooved profile, they are easy and quick to install.

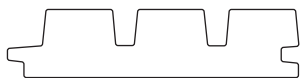

BENEFITS OF LUNAWOOD BATTEN-LOOK PRODUCTS
