

Project Ö, Finland, by Aleksi Hautamäki

Luna Panel System -product family

The Luna Panel System is a product family that allows to create an original rhythm and texture by playing with the different widths and thicknesses of the products. The outlook of Luna Panel System is vivid and authentic, yet modern.

Luna Panel System profiles of sustainable Nordic Pine, have a contemporary, straight edge. They create a sophisticated 3 mm shadow line between the panels. The concealed fastening completes the stylish result.

Luna Panel System can be installed horizontally and vertically. The products can be used indoors and outdoors.

Benefits of Luna Panel System

- Contemporary design with vivid Nordic Pine
- Five widths and three thicknesses give freedom to design own patterns
- Can be installed horizontally and vertically
- Suitable for both indoor and outdoor use
